Ken Vallone Director of Operations

Ken:

I wish to express my thanks to you and your crews for a job well done. The wiring of our three schools went very smoothly this summer. I have had numerous people from our maintenance crews to the administrators, tell me your crews were very professional. Your crews were friendly, cleaned up after themselves, and went to great lengths to work with our maintenance people who were very busy with summer work.

The fact that this type of praise is very seldom given tells me that they were exceptional.

Sincerely,

David M. Eckerson
Computer Systems Manager
