Dear Rick,

I would like to take this opportunity to send my sincere appreciation to Sonitrol, Cable Systems and their employees for the great job in rewiring the State Treasurer's office. The project was very complicated, with divisions reorganizing and moving to different floors.

We were very fortunate to have you as our project manager and Ken Valoone and Mike Onofrio as job supervisors. Ken did a terrific job, with very tight time lines on our 5th and 6th floor rewiring project, as did Mike on the 7th floor. All the work crews associated with the project should be applauded for their hard work and for working in less than ideal circumstances.

We continue to work with Mike Onofrio on cabling projects as we prepare for the installation of a new phone system. Mike has been very cooperative and has worked extremely hard to ensure our projects are completed within our tight timelines. Mike is an asset to the Cable Systems Corporation and is a pleasure to work with.

Again thank you for your assistance in what has been a very busy and productive year at the State Treasurer's Office.

Sincerely,

A handwritten signature in black ink, appearing to read "M. P. Last".
