Subject: State Office Building move.

Printed copy to Ken Valone/Sonitrol, Joe Tedone/Space Fitters, Steve/Space Fitters.

This weekend a team of us moved Purchases, Federal Donated Foods, and Workers' Comp. Without the help from all of you this move could not have happened. I just wanted to thank all of you for all that you did.

To Jose, you took over and ran the ship when needed like a pro. Thanks for all the OT you put in to make sure our customers were ready to work on Monday.

To Colleen, I saw how hard you worked helping move users equipment so they could be set up on the network early. All that you did was greatly appreciated.

To Marilyn, thank you for covering in room 419. Without you we never could have left the Computer Room for such long periods of time.

To Kathy, your help in making sure the phone lines, data lines, and fiber optic lines, were where they were supposed to be, when they were supposed to be helped us out a great deal.

To Linda, your knowledge of how the rooms are designed, and all the hours you put in making sure they were designed properly, made our job easier on the day of the move.

To Christine, thank you for setting up the printers and clients for all of the Purchases section. And for all the hours you have put in to help us.

To Leo, thank you for coming over and helping Christine set up equipment on our LAN.

To Joe and Steve at Space Fitters, you guys were great! You had no previous knowledge of our LAN and yet you were instrumental in the move. Your hard work was greatly appreciated.

To Ken from Sonitrol, thank you for all the work that you did for us on the data side. Your guys were great. Without your added help with some extra lines and making sure we had fiber connections, our customers would not have come up on time.

With team work like this, all future moves should go without a hitch! Let's hope.

Thanks,

Linda Hubeny
