Anthony Buono, President
Cable Systems
500 Washington Avenue
North Haven, CT 06473

Dear Terry,

I am writing this letter to express my sincere appreciation for the outstanding work performed by your company at Manchester Community College. Specifically, the team of Kenneth Vallone, Director of Operations, Patrick Reardon, Project Manager, Bruce Duley, Technician, and Daniel Boughton, Technician was awesome! Kenny's help with the original design and Pat's knowledge, professionalism on the job, project management skills, and his uncanny ability to get along with all trades involved in the project were fantastic. The craftsmanship displayed by Bruce, Danny, and Pat on a project of this magnitude can be summed up in one word – excellent! This showcase Category 6 installation was the result of a meticulous team of professionals who continuously took great pride in their work.

Please pass along my thanks to these gentlemen for the excellent work they performed and how they professionally represented Cable Systems in the process.

Sincerely,

Paul Nicholas
TTS Department of Information Technology
