RE: Public Health Laboratory Project

---

We have completed the installation of the telecommunications system at the Laboratory and I want to thank you for your assistance in this effort. In particular, John Kustra and his staff on-site were exceptional in their performance. They approached their work in an organized manner, worked well with Laboratory staff and other contractors on-site, maintained a clean and orderly work area and always understood and met the technical requirements of the project.

Thank you again for your assistance.
